

## 1. RULES AND REGULATIONS

Ka-Chingo is governed by the Rules and Regulations Respecting Bingo Games of British Columbia Lottery Corporation (“**BCLC**”) which include limitations of liability and are available from BCLC upon request.

Ka-Chingo is the linked bingo system and Afternoon, Evening and Late Night are the three Ka-Chingo games; and CashLine is a play component of the game.

## 2. ISSUANCE OF SHEET

To participate in a Ka-Chingo game a person must pay the participating bingo service provider the required amount as set by BCLC for one sheet (“**Sheet**”). Upon payment, a Sheet will be issued containing four (4) bingo cards, verification number, bar code and other relevant information. Each Sheet is valid for a complete Ka-Chingo game.

By purchasing a Sheet, and upon payment of an additional amount set by BCLC per Sheet, the player will be eligible to play the CashLine game.

## 3. DRAW

BCLC will determine the time at which Afternoon, Evening and Late Night games will be played. On each draw and time fixed, BCLC will generate 75 bingo numbers which will be drawn in an unbiased and unpredictable manner from a range of bingo numbers: B1 to B15, I16 to I30, N31 to N45, G46 to G60 and O61 to O75 inclusive. The bingo numbers shall then be called one at a time in the order drawn and displayed simultaneously at all participating gaming facilities. Not all 75 bingo numbers that are generated will be required to declare a winning bingo card on a Sheet(s). Any bingo number(s) not so required to complete a Ka-Chingo game will not be called.

## 4. RESULTS

- a. Each bingo number drawn and called will apply to each bingo game which comprises a complete Ka-Chingo game.

A complete Ka-Chingo game consists of at least three (3) bingo games played in the following order:

- i. CashLine game;
- ii. Progressive game (“**Progressive**”);
- iii. Consolation game (“**Consolation**”).

A complete Ka-Chingo game may also include a Bonus bingo game (“**Bonus**”) or Contingency bingo game (“**Contingency**”) in certain circumstances as determined by BCLC.

- b. The CashLine, Progressive and Contingency (if any) are played at all participating gaming facilities simultaneously. The Consolation is played at each individual participating gaming facility simultaneously until a winner is declared for each individual participating gaming facility. A Bonus may, at the sole discretion of BCLC, be played either at all participating gaming facilities simultaneously or at an individual gaming facility.

## KA-CHINGO GAME CONDITIONS

The bingo numbers drawn for a particular Ka-Chingo game will be called and displayed simultaneously, one at a time in the order drawn, at all participating gaming facilities. Such bingo numbers shall apply to each of the games forming part of a complete Ka-Chingo game.

- c. A player must mark each bingo number on a bingo card that matches a bingo number that is drawn and called.
- d. A winner is declared for each of the following bingo games when the conditions described below have been met:
  - i. For a CashLine game:
    - (1) the player must dab the numbers on the top line of a Sheet which is eligible for the CashLine game by matching between four and seven of the first 15 bingo numbers drawn and called;
    - (2) the player must present the card to the service provider at the location where the card was purchased and played, within 30 minutes of the end of the Ka-Chingo game at that location in order to validate their claim for the prize corresponding to the numbers matched on the CashLine. Prizes up to and including \$500 must be claimed when the card is officially validated. Where such prize exceeds \$500, the player has up to one year to claim the prize once the card has been officially validated within the 30 minute post-game time limit prescribed.
  - ii. For a Progressive game:
    - (1) the player must correctly match the pattern as prescribed by BCLC on any one (1) bingo card on a Sheet by matching the bingo numbers drawn and called within the predetermined number of drawn bingo numbers called;
    - (2) the player must clearly and audibly communicate that he or she has "Bingo" or "Ka-Chingo" before the next bingo number is called; and
    - (3) the bingo card has been verified as a winning bingo card.
- e. After BCLC has declared that the CashLine and Progressive bingo games are closed, each player at a participating gaming facility can continue with a Consolation bingo game for that gaming facility. A winner is declared for a Consolation bingo game when:
  - i. the player has correctly matched the pattern as prescribed by BCLC on any one (1) bingo card on a Sheet by matching the bingo numbers drawn and called;
  - ii. the player must clearly and audibly communicate that he or she has "Bingo" or "Ka-Chingo" before the next bingo number is called; and
  - iii. the bingo card has been verified as a winning bingo card.When a winning bingo card for the Consolation bingo game at that gaming facility is verified, Ka-Chingo will be closed at that gaming facility and the holder(s) of the winning bingo card (s) win or share the Consolation prize for that gaming facility.
- f. Subject to Sections 4g. and 4i. when a player communicates that he or she has "Bingo" or "Ka-chingo", no further bingo numbers will be called until either a winning bingo card has been confirmed or it is determined that there is no winning bingo card.

## KA-CHINGO GAME CONDITIONS

- g. It is the player's responsibility to declare "Bingo" or "Ka-Chingo" in such a manner that the caller at the gaming facility where the player is playing becomes aware of the declaration and stops the Ka-Chingo game before the next bingo number is called.
- h. After a winning bingo card has been verified, BCLC shall declare that portion of the Ka-Chingo game closed and any prize(s) won by each winning bingo card shall be displayed at all participating gaming facilities. No further claim for any prize in a bingo game forming part of a Ka-Chingo game may be made after BCLC declares the Ka-Chingo game or that portion thereof closed.
- i. If a player has matched the pattern as prescribed by BCLC on a bingo card and has a winning bingo card, but has not communicated "Bingo" or "Ka-Chingo" to the caller at the gaming facility where the player is playing, then the Ka-Chingo game will continue and additional bingo numbers shall be called. A player who communicates "Bingo" or "Ka-Chingo" after any additional drawn bingo numbers have been called will share the prize for that bingo game with all other player(s), if any, who become winners as a result of additional drawn bingo numbers being called.
